October 26th

INTERNATIONAL

1) Calixcoca

- Brazil have developed a vaccine named “Calixcoca” for the treatment for cocaine and crack addiction.
- This vaccine aims to disrupt the effects of cocaine by triggering an immune response in the body, preventing the drug from reaching the brain and providing the pleasurable “high” associated with its use.

2) “2023 State of the Climate Report”

- According to the ‘2023 State of the Climate Report: Entering Uncharted Territory,’ published in the BioScience journal, the year 2023 has seen 38 days with global mean temperatures above this critical threshold.
- The report highlights a dire situation as 20 out of 35 planetary vital signs used to monitor climate crises are at their worst in human history. These indicators encompass various aspects of environmental health, including biodiversity, temperature, and ecosystem integrity.

3) “Interconnected Disaster Risks Report 2023”

- A report published by the United Nations University — Institute for Environment and Human Security has raised a red flag regarding India’s dwindling groundwater levels.
- The report focuses on six environmental tipping points, including groundwater depletion, and reveals a dire situation worldwide.
- The report indicates that 78% of wells in the state of Punjab are considered overexploited, and the entire north-western region is expected to face critically low groundwater availability by 2025.
